

Weekly Report 05/11/2014

The data inspection project

Learning canvas-based web-end implementation:

Bar chart, line chart, scatter plot

TODO:

1. Implement statistical functions at the server end
2. Implement more charts: matrix, node-link, sunburst, box plot, force-directed layout

Miscellaneous

1. Annual report material collection
2. Advising Yumeng Hou's thesis project. Basic feature completed
3. SAT solver (Boolean Satisfiability Solver) implementation

Future Work

1. Advising Yumeng Hou of her thesis project. Basic features have been completed.
2. VASA project: progress bar implementation
